Wilmington, N. C.

Its Growth and Resources

[The following matter, furnished by the Chamber of Commerce, contains Secretary Kyle's annual report and a part of President Taylor's address.]

Growth of Population.

The growth of our population in the past five years has been very notable, being an estimated increase of about 50 per cent. Boom towns easily attract and as readily lose population, while growth that is predicated on sound economic conditions is more gradual but permanent. Wilmington has never had a boom. The percentage of increase in our population, however, is not the most noteworthy characteristic, as the change in the composition of the population is an economic factor of almost incalculable value. The percentage of white population has largely increased, and this has brought with it a ratio of wealth-producing and self-sufficing units which we believe make Wilmington the solidest city in the South. The character of this increase in population is reflected in our savings banks deposits, which within the past twelve months have increased $450,000. This analyzed means that the employee class of the community is a factor of wealth-production to itself as well as to the employer class—a condition that denotes the highest degree of material prosperity and social contentment.

Real Estate.

Real estate values have been gradually but steadily increasing for the past five years, until to-day it is conservatively estimated that property advantageously located shows an appreciation for this period of 100 per cent. This remarkable appreciation is directly traceable to growth of business and to the increase and change in the character of the population, and these in turn rest upon an efficient municipal government, which has characterized this community for the past six years, for good government is no less essential to material prosperity than to social well-being. Of public improvements during this period, street-building especially has made marked progress, and it is reasonably certain that within a few years general real estate values will have so enhanced as to greatly broaden the taxable basis and work a reduction of the tax rate.

Truck.

The magnitude of this interest can be in a measure appreciated when it is stated that, from what is known as the Wilmington zone, shipments are estimated to reach the enormous figures of $5,000,000 this season. The

15492

volume of this industry is a present source of wealth to Wilmington's commerce; but the more that our climate and soil are studied and understood, the more certain it is that we are but in the morn of development. A map recently issued by the Federal Government, for the information of the general trucking interest, shows that the precipitation in the Wilmington belt is better adapted to truck culture than in any other section of the country. There is no spot on the Atlantic coast so favored as respects either soil or climate, while our geographical location renders it possible for us to reach the consuming centres of the North, East and West with a dispatch and at a cost which competition from sections further South is impossible. We can market our products at a profit at prices that would mean cost and less than cost to sections further South, while by reason of the lateness of the season North of us we rarely meet competition from even the Norfolk section.

Harbor Improvements.

It is a cause of sincere congratulation that Wilmington has been placed on the continuous appropriation list of harbor improvements. At the last session of Congress a continuous appropriation of $450,000 was made for the lower Cape Fear and Bar, for which we must acknowledge our indebtedness to Congressmen Patterson and Small. There is reason to believe that the appropriation can be doubled with the proper public effort on the part of Wilmington.

Pilotage.

The business public is to be congratulated on the repeal of the compulsory pilotage laws of the Cape Fear River and Bar, which was accomplished at the last session of the Legislature through the efforts of the Chamber. These laws had for a long time restricted the commerce of this port, and their repeal must show an ultimate expansion of large proportions. Wilmington is the only *free port south of Maine*, which fact cannot but bring us into prominence in shipping circles. The full effect of the repeal of compulsory laws will not be manifest at once, but inasmuch as pilotage fees are a part of port charges, and therefore enter into the freight rate, the elimination of this item must soon work a new adjustment. The shippers themselves can do much to hasten a full realization of the benefits, and this they are not likely to neglect. Through the medium of the Chamber provision has been made for maintaining a thoroughly competent *pilotage service* at the Bar for ships of deep draught which may require the services of a pilot, and steps have already been taken to notify the shipping world of the situation at this port.

The Press.

It is of noteworthy significance that a more independent and fearless attitude has begun to mark our local press in the treatment of State and local matters. There is no influence so potent to prevent and correct abuses and so powerful to initiate enterprise and promote progress as a firm and

forceful press. It is the medium of informing and chrystalizing public sentiment, and it may be said without exaggeration that neither corruption nor letheragy can abide in company with a virtuous and vigorous press.

THE SECRETARY'S REPORT.

Comparative statement of the volume of business done at the port of Wilmington from actual statistics, conservatively gathered and accurately compiled:

	1903.	1904.
Cotton	$21,000,000	$16,000,000
Groceries	8,000,000	8,800,000
Dry Goods	2,250,000	2,700,000
Fertilizers	2,000,000	2,500,000
Lumber	1,000,000	1,200,000
Naval Stores	800,000	1,000,000
Cotton Mills	600,000	360,000
Shoes	575,000	865,000
Hardware	500,000	600,000
Truck	350,000	450,000
Shingles	300,000	300,000
Building Material	300,000	375,000
Peanuts	225,000	250,000
Fuel	140,000	155,000
Drugs	125,000	135,000
Ice	55,000	65,000
Miscellaneous	1,975,000	2,140,000
Total	$40,495,000	$37,895,000

[The falling off in the total amount above is by reason of the high valuation of cotton during the year 1903, but it will be seen that the gain in the volume of all other items is considerable.]

The increase of postal receipts at Wilmington for the calendar year of 1904 over that of 1903 is as follows:

Calendar year, 1903	$63,151 33
Calendar year, 1904	69,311 74
Increase	$6.160 41

An increase of 9¾ per cent.

Increase in savings banks deposits are reported $450,000, and an increase of 25 per cent. in the volume of business done by the national banks of the city.

Can Cancer Be Cured?

It Can

FRED C. KELLAM
GEN. MANAGER

FRANK G. KELLAM
SECRETARY

HARRY KELLAM, M. D.

WITHOUT the use of the knife we cure Cancers, Tumors, and Chronic Sores, charging nothing for examination. Our patients are our best friends.

ʃʃʃ

Come and see the Cancers we have removed and cured from our now happy patients, and are daily curing. They are wonderful. If then you are not satisfied, we will pay all your expenses.

To make a Happy Fireside

To make a happy fireside clime
To weans and wife
That is the true pathos and sublime
Of haman life.

Burns.

For *you* and *your* family, *your* mind should be free from care about their future, and *their* minds should be free from care about your crops.

The **Southern Almanac weather predictions** take away this care and worry.

No one will be without the **Southern Almanac** after having had one and watched these weather predictions.

The **Southern Almanac** has the largest circulation of any Almanac published in Virginia and North Carolina—**100,000.**

Association of American Directory Publishers

Organized December, 1898

The Objects of the Association are as Follows

FIRST—To improve the Directory business by the interchange of ideas and by the exchange of competent employees.

SECOND—To protect the public against fraudulent advertising schemes, operated under the name of Directories, and to drive such publishers out of the business.

THIRD—To provide permanent and continuous employment for honest and faithful Directory Canvassers.

FOURTH—For the mutual advancement of the established and prospective interests of all who may become members of the Association.

OFFICERS

W. E. MURDOCK, President — W. H. LEE, First Vice-President
A. G. WRIGHT, Second Vice-President — W. H. BATES, Secretary
R. H. DONNELLY, Treasurer

The Wilmington Star

PRUDENT ADVERTISERS
SHOULD NOTE THESE FACTS:

The Morning Star

Is the OLDEST DAILY NEWSPAPER in North Carolina, and never since its first issue has there been any change of name, proprietorship, or editorial management.

It guarantees a much LARGER, REGULAR BONA FIDE CIRCULATION than any other daily newspaper published in Wilmington. This claim has never been challenged by any competing newspaper.
